Texas to Investigate COVID Vaccine Makers Over Gain-of-Function Research, False Efficacy Claims

Texas Attorney General Ken Paxton today launched an investigation into whether Pfizer, Moderna and Johnson & Johnson engaged in gain-of-function research and misled the public about doing so, and whether the companies misrepresented the efficacy of their COVID-19 vaccines, in violation of the Texas Deceptive Trade Practices Act.

By **Brenda Baletti, Ph.D.**

Miss a day, miss a lot. *Subscribe to The Defender's Top News of the Day.* ***It's free.***

Texas Attorney General Ken Paxton today launched an investigation into whether Pfizer, Moderna and Johnson & Johnson committed fraud related to the COVID-19 vaccines.

Paxton will investigate whether the companies misrepresented the efficacy and safety of the vaccines and manipulated vaccine trial data, in violation of the state's Deceptive Trade Practices Act.

He also will investigate whether the pharmaceutical giants engaged in gain-of-function research and misled the public about it, The New York Post reported.

"If any company illegally took advantage of consumers during this period or compromised people's safety to increase their profits, they will be held responsible," Paxton said. "If public health policy was developed on the basis of flawed or misleading research, the public must know."

Paxton said Big Pharma had a "vested interest" in the success of its COVID-19 vaccines because they drove record profits.

"This vested interest … combined with reports about the alarming side effects of vaccines, demands aggressive investigation," he said.

In 2022 alone, Pfizer reaped profits of $31.4 billion on record sales of $100.3 billion. Sales from its COVID-19 vaccine and Paxlovid, used to treat COVID-19, totaled $56 billion — more than half the vaccine maker's annual revenue.

Moderna's Spikevax generated approximately $18.4 billion in revenue last year, up from $17.7 billion in 2021.

Johnson & Johnson's first-quarter 2022 COVID-19 vaccine sales were only $457 million, but in 2021, its vaccine sales reached $2.4 billion.

Paxton also said that because mandates were dictated at the federal level, "This investigation into the scientific and ethical basis on which public health decisions were made is of major significance."

As part of the investigation, Paxton will demand the three companies provide documentation related to decision-making about pandemic interventions, "especially when a profit motive or political pressure may have compromised Americans' health and safety."

The investigation could have implications for the immunity vaccine makers enjoy under the Public Readiness and Emergency Preparedness, or PREP Act, for producing vaccines under Emergency Use Authorization, Kim Mack Rosenberg, acting general counsel for Children's Health Defense, told The Defender.

She said:

> "I applaud the Texas attorney general investigating fraud in connection with COVID-19 shots.
>
> "Because these injections are covered by the PREP Act and the Countermeasures Injury Compensation Program (CICP), with near blanket liability protection for manufacturers and significant restrictions and limitations on recovery for injuries, evidence of fraud or willful misconduct may be an avenue to justice for the many who have been injured by these products."

The PREP Act declaration for Medical Countermeasures Against COVID-19 shields manufacturers of COVID-19 pandemic countermeasures, such as vaccines or treatments, from liability for injuries resulting from those countermeasures.

It funnels vaccine injury claims into the CICP program, which is meant to compensate people with vaccine or other covered countermeasure-related injuries for expenses associated with their injury.

To date, the CICP has compensated only three of the more than 10,000 claims brought for COVID-19 countermeasure injuries.

But the PREP Act does not immunize manufacturers from liability in the case of "willful misconduct."

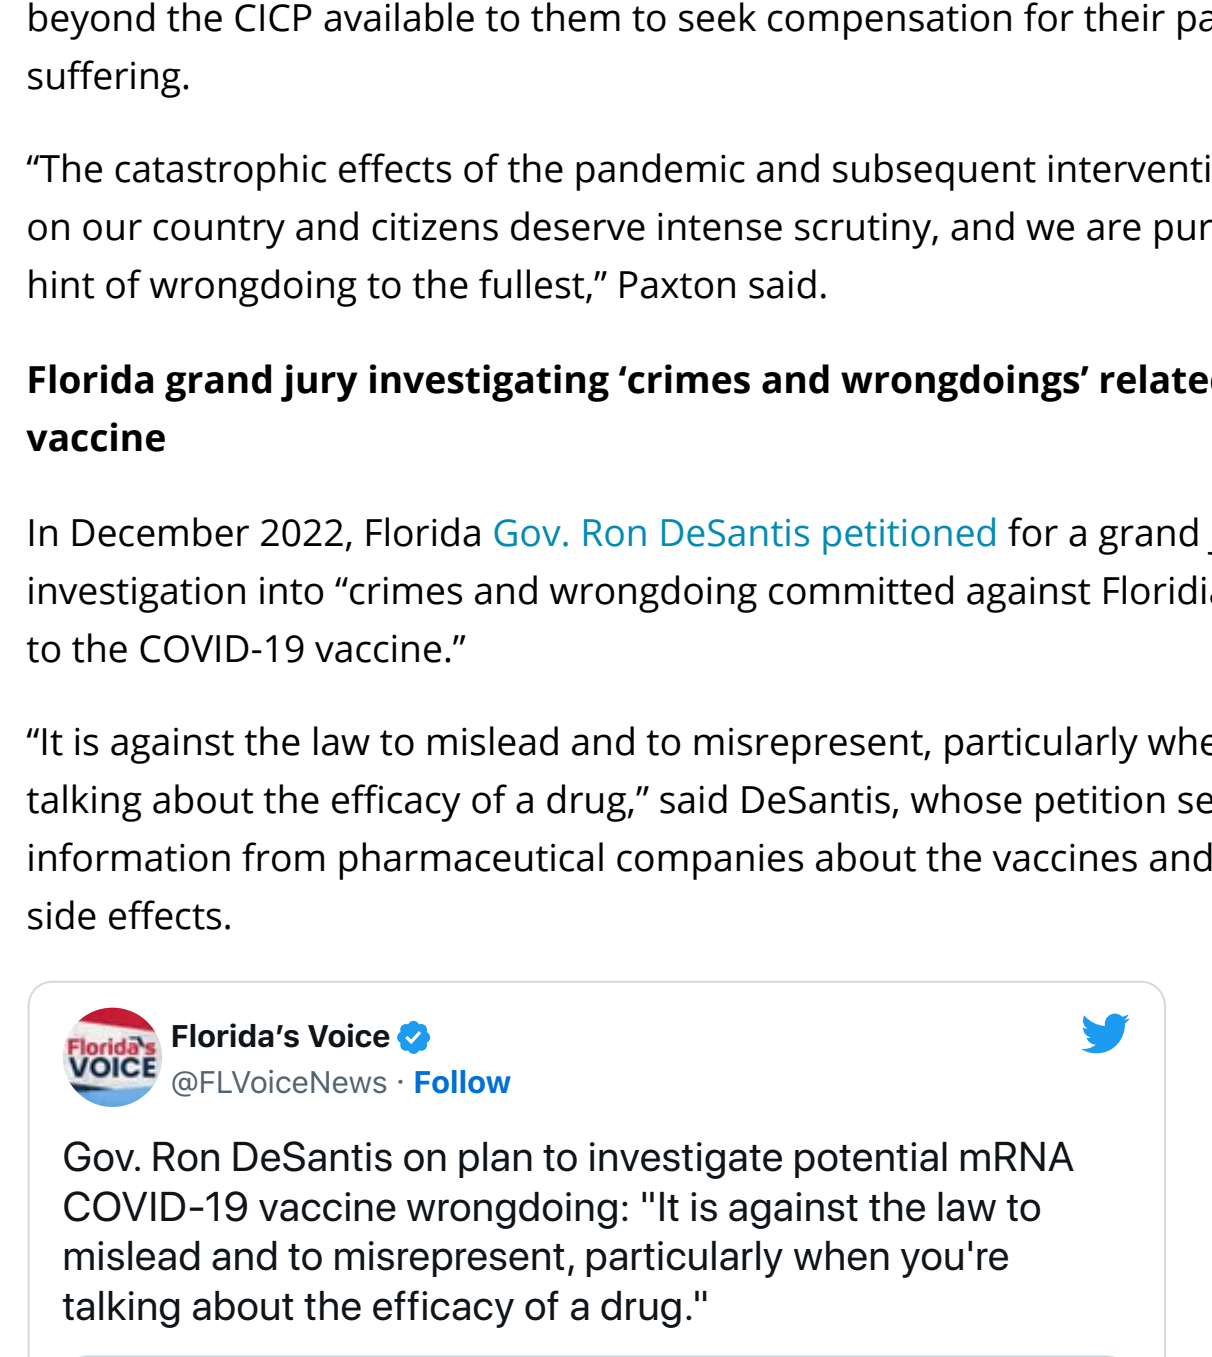
That means if the Texas attorney general proves the companies engaged in willful misconduct, people injured by the vaccine may have other methods beyond the CICP available to them to seek compensation for their pain and suffering.

"The catastrophic effects of the pandemic and subsequent interventions forced on our country and citizens deserve intense scrutiny, and we are pursuing any hint of wrongdoing to the fullest," Paxton said.

Florida grand jury investigating 'crimes and wrongdoings' related to COVID vaccine

In December 2022, Florida Gov. Ron DeSantis petitioned for a grand jury investigation into "crimes and wrongdoing committed against Floridians related to the COVID-19 vaccine."

"It is against the law to mislead and to misrepresent, particularly when you're talking about the efficacy of a drug," said DeSantis, whose petition seeks more information from pharmaceutical companies about the vaccines and potential side effects.



Florida's Voice @FLVoiceNews · Follow

Gov. Ron DeSantis on plan to investigate potential mRNA COVID-19 vaccine wrongdoing: "It is against the law to mislead and to misrepresent, particularly when you're talking about the efficacy of a drug."

8:42 AM · Dec 13, 2022

1.7K See the latest COVID-19 information on Twitter

Read 92 replies

DeSantis argued that pharmaceutical companies had a financial interest in creating a climate in which people believed that getting a coronavirus vaccine would ensure they couldn't spread the virus to others.

"The Biden administration and pharmaceutical corporations continue to push widespread distribution of mRNA vaccines on the public, including children as young as 6 months old, through relentless propaganda while ignoring real-life adverse events," DeSantis' office said in a statement in December.

The Florida Supreme Court granted his request on Dec. 22, 2022, committing to convening a grand jury to investigate any wrongdoing with respect to the COVID-19 vaccines. The grand jury will meet for one year.

In the meantime, DeSantis also convened a Public Health Integrity Committee comprised of some of the top COVID-19 countermeasure experts, including Jay Bhattacharya, M.D., Ph.D, Martin Kulldorff, Ph.D. and Tracy Beth Høeg, M.D., Ph.D.

The committee will meet in May to examine "adverse events from mRNA vaccines," The New York Post reported, and it will also provide guidance to the Florida Department of Health.

Along with DeSantis, Florida Surgeon General Joseph Ladapo, M.D., Ph.D., has been vocal in his concerns about adverse events associated with the vaccines. He issued a health alert in Florida, warning residents about a "substantial increase" in reports of adverse events.

He also petitioned the heads of the U.S. Food and Drug Administration and the Centers for Disease Control and Prevention to investigate the millions of adverse events that have been reported to VAERS.

He asked them to "promote transparency" with respect to the excess risk of adverse events associated with the mRNA COVID-19 vaccines and asked them to "promote transparency" among healthcare professionals "to accurately communicate the risks these vaccines pose," The Defender reported.

Thank you so much for this site ever existing. I accidentally found it in the first couple of weeks of Covd despair (2019) here in the UK and it has gotten me through those years. I know I am not mad, bad, denier, traitor ... etc.
Post tenebras, lux - after the darkness, light - my school motto, along with the school emblem of a Phoenix has picked me up in the darkest days of my life.
The truth will out eventually, and this tiny step is just another on the path to letting the masses realise we were hoodwinked and the status quo MUST be changed somehow.

19 0 Reply • Share ›

Perhaps, not, in total fact, this all COVIDan and fake killer vaccines is the biggest lie in the HISTORY, and the worst by the consequences.... Mengele perhaps didn't imagine some like this could happened...in FREEDOM COUNTRIES. THE END of the Civilization. God guide us.

1 0 Reply • Share ›

Many vaccine and drug makers have been sued for millions with their defective products...yet, they keep on going. They push a product for as long as possible willing to pay the fines, until they are finally brought to justice. They have made so much money in the interim.. they are willing to pay the fine. This is the story of this corrupt pharmaceutical industry. if studies in med school were legitimate, doctors would have studied how the immune system actually works...and would not have depended on "research and results" coming from the phamaceutical industry.

Lawsuits are not the way forward, period. Misrepresentations of efficacy on most medical products are clearly fraudulent. Daisy-chaining and syndication of corporate structures, allows pharmaceutical manufacturers to hide behind layer upon layer of shadow companies and myriad agencies. These shadow structures are no accident. If one observes the financial holdings and profits of companies such as Pfizer, it is obvious even "successful" class action suits fail to put even a small dent in profitability. Who pays the actual cost? Shareholders and consumers...

The way forward is to identify specific persons within these executive structures, and file Strict Liability actions in criminal courts. Look up Blacks Law definitions of Strict Liability (criminal). Also look into Revocation of Corporate Charter.

The corporate State needs to be entirely dismantled, and all future corporate structures banned from existence.

The fundamental
deception and fraud relates to the thing, the "pathogen", that was presented to be what necessitated
vaccines, that is, everything about the thing that is presented to be what is making people ill.

If that
something is determined to be something that can be fully created in a laboratory, then we will continue to have "off the shelf" pandemics anytime a pandemic is determined to be efficacious for the rulers' objectives.

Until that
fundamental truth is determined, there can be no just and meaningful governmental actions regarding "Efficacy and safety of the vaccines," "manipulated vaccine trial data," and "violation of deceptive trade law" or just about anything else that relates to the common good of a sovereign constitutional republic.

7 0 Reply • Share ›

Paul Vonharnish ➔ jeannonkralj

And yet, regardless of the findings, we will probably not hear a word of this on MSNBC, CNN, or the major networks as they get about 75% of their advertising from big pharma. It'll become the biggest story never told. We will still be called conspiracy theorists. And the US will still require international travels have proof of being jabbed to enter the country.

The Tsunami of Retribution has started. All it takes is one Attorney General to surface the evidence. Dozens of experts are willing to help in the investigation.

This will be the fastest Class Action in history. Within a few years, I want to see Big Pharma go bankrupt and be taken over by honest management. I want to see them pay out hundreds of billions on damages and compensation. If big Banks can fail, so can Big Pharma.

I will live to see that day.

There never was a "pandemic"! There was nothing within the past three years to make me sick, because I take care of my health, I exercise regularly and I don't poison myself with fake food. I expect that other healthy people are no different. "Gain of Function" is like flogging a dead horse, over and over and over! The **nanobot shot** is the **bioweapon**! Coronaviruses are **cold viruses**. The cold and flu...that's what we've been dealing with. If people don't take care of their health and especially if they're already on multiple drugs from big pharma - a simple cold or flu could take them out! 5G could also be a factor; or what's falling from the sky, with the rain. There's lots of toxicity to go around in this society. Taking care of one's health, is a personal responsibility and it isn't that difficult. Nobody is going to do it for you.
Do you all know about the **World Council For Health**? The best doctors in the world are involved in this global endeavour. I've watched a few of the videos. If you want to know about covid, the agendas - especially the WHO; this is the place to find it all! I believe they are currently travelling across Canada.

Dr. Judy Mikovits a virologist who worked at Fort Detrick and who worked under Anthony Fauci has stated her belief that all viruses since the 1980s have been created by way of gain of function in these labs and added into vaccines through additives, adjuvants, and particulates that lay the ground for future illnesses. She admits that she did not always believe this, but now is certain that the work she was doing is in fact how this has been done and would explain how disease and especially childhood disease is on the rise and not on the decline as one might expect given that vaccines are touted as having been responsible for eradicating so many diseases, yet disease is on the rise all across the board.

People need to look at who these people are and what they believe in to fully understand what we are dealing with. Bill and Melinda Gates did in fact originally refer to their organization as one intended to use public health for population control. Henry Kissinger, Boris and Stanley Johnson, the Bush family, Gates family, the British royal family, Jeffrey Epstein, Anthony Fauci, and many many more were all working on future transhuman, technocratic, eugenist agendas getting us all to buy into this as a necessity with the false climate change narrative, technology is part of this. If they could get an entire global population to believe that humans were responsible for causing climate devastation rather than the true cause of it, then they could get us all to buy in to all these different measures

CORPORATIONS CANNOT BE SOVEREIGN GOVERNMENTS
April 5, 2016
Quoted from the article: **THE COURTS ARE ENFORCING FRAUD WITHOUT EVEN A FRAUDULENT CONTRACT**

"Let's examine the fraud, or realistically, PIRACY. There is a FICTION called THE UNITED STATES, on the STATE OF NEW COLUMBIA/D.C., which is in an intentional, perpetual, artificial Bankruptcy and State of Banking Emergency, under Martial Law, under U.N./I.M.F. organization, owned by the Crown-Vatican-Swiss Banksters, controlled by the Zionist Jesuits, militarily micro-managed by the Israel/MOSSAD criminals, that enslaves it's citizens for said artificial DEBT, enforced by the Crown Temple B.A.R. Jesuit Admiralty Maritime Military Tribunal Courts, that steals the land from the people, poisons the food, water, air, and medicine, that bombs and invades all nations without Central DEBT Banks, steals their resources, taxes the people to fund the piracy, and labels anyone who is onto their crimes as domestic terrorists."

The above conditions are obvious and observable facts. Readers should read the article several times.

Blame, yeah the manufacture's, but even w/o the EUA, I think mainstream media, played a major role in misguiding the public, our government, CDC, all agencies that have a vested responsibility in protecting public health. Most of all I put the blame on individuals who, w/o any knowledge of possible side effects, because there was non put out there, common sense was seriously lacking, just guinea pigged themselves, because the government said it was safe & effective. Hello, red flags all around. And since when does Hollywood promote/push vaccines, never once like w/ any drug put on the market, seen a commercial w/ a Dr. standing by the Covid-19 jab, or a list of possible side effects, as we see in all other drug commercials. Yes, the manufacture's need to pay up for all the devastation they caused, w/o a doubt.
